- Frontend: HTML, CSS, JavaScript, Alpine.js, Blade, WordPress, Webflow, Shopify
- DevOps: Linux servers (Hetzner), Git, staging/QA environments, backups, Jira
- AI: AI assistant integration, vectorembded knowledge bases, Alassisted development
- QA: Selenium, automation scripts, manual & cross-device testing
- Analytics: Google Analytics (GA4), Firebase Analytics, SEO

I'm a full-stack and mobile developer with 4+ years of experience building websites, mobile apps and APIs. I work mainly in Flutter, Laravel and PHP, and I've built and published apps live on both the Apple App Store and Google Play. A large part of my background is in WordPress — I've designed, built and maintained 10+ business websites from scratch, handling custom themes, plugins, hosting, SEO and ongoing support. I also bring a QA mindset and a designer's eye to everything I ship, so what goes out is tested, fast and looks the part.

Experience

● R R Technologies (Pty) Ltd – South Africa

Co-Founder | Full-Stack & Mobile Developer (2026 – Present)

- Co-building CoreX OS, a web-based real estate management platform (Laravel, PHP, MySQL) covering listings, contacts, documents and compliance.
- Built the companion Flutter mobile app, published on the Apple App Store and Google Play.

● Reworks Solutions – Remote (U.S. Company) (Full Time)

QA Tester | Flutter Developer | Web Designer (Nov 2025 - Present)

- Develop features for Stafflion, a Flutter shift-staffing platform with mobile apps live on iOS and Android plus a web app.
- Implemented Firebase Analytics custom event tracking (shift requests, acceptance, cancellation, support tickets)
- Test and debug mobile and web releases for stability, performance and cross-device compatibility.
- Assist with API integrations and backend data handling; work in Jira-tracked Git feature branches

● Home Finders Coastal – South Africa (Part Time)

IT & Website Manager | Social Media & Graphic Designer (2022 – Present)

- Manage the agency's IT, website and internal systems.
- Designed brand identity systems, brochures and digital ad creatives for property campaigns.
- Produced social media visuals and motion graphics, increasing post engagement by 45%.
- Implemented SEO and accessibility standards across web assets, improving online visibility.

● PPC Experts – South Africa (Contract)

Web & Digital Assistant (2022 – Current)

- Designed client ad banners, web imagery and keyword-optimised graphics for PPC campaigns.
- Supported reporting dashboards with visual data presentation and campaign graphics.

Education

- Diploma in Systems Development (NQF 6) – Boston City Campus
- Matric (Bachelor's Pass) – Suid-Natal High School
